

# MICHAEL E. LEHMAN

## About Our Founder:

Michael E. Lehman was born December of 1936; he was raised in York, Pennsylvania. After graduating High School, Mike joined the United States Navy; during this time, he traveled the world and spent a good bit of time in Naples, Italy. He served 4 years in the United States Navy. It was during this time he developed a passion for Electrical Engineering. Mike received numerous citations and invitations to attend the United States Naval Academy; he chose to take a different path. Mike put himself through George Washington University, where he earned a Bachelor's Degree in Electrical Engineering. Mike started a company in York, PA. That path led him to Chambersburg, PA where he opened American Contract Services, a small one-room operation in July of 1995. In 1998, the company became American Micro Industries, Inc. As the business grew rapidly, he expanded, eventually taking over both buildings located in Chambersburg, PA; totaling 45,000 square feet. Our electrical insulation division slowly developed into the addition of our soundproofing division. Fast forward to 2018, we look back and are grateful to have had such an amazing mentor for almost 23 years. Mike was a kind, generous and giving man, he was loved by many and left an unforgettable mark on all that had the honor to call him a friend. We are thankful every day for the opportunity Mike gave to us and we work diligently to continue his strong belief in providing exceptional customer service, high quality products, and the best possible work environment for our employees.

He will be forever missed.

Michael E. Lehman  
12/20/1936 – 06/10/2018
